Examine carefully the minutes and changes on the Court Approved Assessment with the knowledge that the only large non-payment is the City of Pueblo and you may have to pay all monies back to other property owners if they are not required to pay. We did agree with Jagger when he agreed for the City to the \$150,000 assessment that within ten years we would proceed with the new assessment appraisal.

Walk the Levee and pick out the hazard projects that need to be done. We were in the process of selecting dead trees to remove; brush to be cleared; logs to be removed from river flow. We have been contracting with DOC SWIFT (Mike McConnell 719 250-0305) for dead tree removal, Spacomonti Construction for general brush removal and removal of weeds, trash and logs from River or other properties. The County has been doing the City agreement to do weed removal on the Levee but we agreed to pay \$4000 of this years' cost due to County Budget issues. The District in the future will have to take over contracting for weeds on the cement because the ten year agreement will be up soon. We have to go back in the minutes to see year I don't recall off the top of my head.

We are members of the Historic Museum to allow us a meeting place and to store our safe, some boxes, some filing cabinets and the map desk. That contract membership is good through December. You have to decide whether to continue or not.

We post notices at the interim city council offices on the hallway bulletin board, on the Museum Bulletin board and at the First National Bank Building. Someone will have to do those postings at least 24 hours before a meeting.

Examine the Court approved Master Plan and select which project is next. Likely was this fall start work on levee toe repairs below this year's earlier repairs.

AK Give the Treasurer's office notice of new contact.

BFB New names of board need to go to the Special District Association.

AK The Corps of Engineers in Albuquerque need to be notified on contact and the work on the levee extension they ordered needs to be done. Rick Kidd has detail the Corps has not yet sent us the inspection letter.

You may want to review property ownership. There are several concerns: documenting ownership of the cooling ponds above HARP; building located on district property near Moffat parking lot; use of land south of levee between Main Street Bridge and Union. What to do with land on Corona.

Certify 2012 assessment and get to treasurer before end of October or there will be no assessment and then PCD cannot do repair projects of Master Plan.

Be sure that you examine carefully the responsibilities the District may have regarding flood protection below the confluence. The Mesa has changed significantly since 1921 and what was once flooded farmland could be flooded developments. That is outside the city boundaries and there is a severe question as to the authority of the city to take on any responsibility on that area if they were to take over the District responsibilities.

With the resignations of this board it was stipulated that we would withdraw our order to the City for payment or proceeding to Mandamus. This was part of avoiding costly litigation initiated by the District and allow a new board to review the responsibilities of the District and its board and the ability to fund maintenance and operations with repairs vs. the dissolution of the District and the City taking over.

The new board must examine those duties, responsibilities and abilities and decide whether to continue the assessment, do a new cost benefit appraisal, dissolve and turn it over to another government unit or go to the legislature for dissolution. If the board does not enforce the assessment they likely have to repay the assessment to all the others who have paid and likely drop any further repairs. If they turn it over I have given the city, Mr. Banner and in my notebook given to a new board member a list of things the city must assure to allow dissolution. There also remains some dispute as to whether the court can allow dissolution without a government body taking over ALL responsibilities of the District. If the assessment continues the new board will have to re-issue the Order to pay and re-certify assessment before the end of October and within the next few years have a cost/benefit appraisal. Jagger told us the city would not protest the assessment if we agreed to a limit of \$150,000 and did the appraisal within a ten year period. Galli said he would put the amount in the City Budget but was terminated

before it was completed. That is how the District vs. City dispute got started when the City without Jagger or Galli learned that they owed the assessment.

]

The new board needs to consider whether all board members will receive same monthly stipend or whether the President will have additional duties as now the president does and therefore receive the approved higher stipend.

FOR RELEASE AFTER 9/1/2011

August 31, 2011

Chamber Leadership Group to unveil Climbing Boulders at Pillars Park

PUEBLO – On September 29, 2011, the Greater Pueblo Chamber of Commerce's Leadership Pueblo class will show that Pueblo's emerging leaders can move mountains.

A ribbon cutting event is planned for 9/29 at 4 PM at the new Pillars Park; an unroped urban rock climbing experience located near the Arkansas River Kayak Course. The Park was conceived by class members in partnership with Steven Meier, Principal Planner for the City of Pueblo, and has been executed as the Leadership Pueblo 2011 capstone project.

Zachary Valdez, Class President, explains how Pillars Park came to be: "Our class decided early on to brand ourselves as the Pillars of Pueblo; challenging ourselves to live up to this lofty title in our future endeavors. We also knew that we wanted our class project to make Pueblo a healthier, more vibrant community. From there, creating the rock climbing experience and giving it the name Pillars Park seemed an obvious choice. It was an ambitious project but the results have been well worth the effort."

Classmates brought in over \$35,000 in cash and in-kind support from local government, nonprofits, businesses, and individuals; and now their vision is becoming reality. The park's two 18-ton natural rock climbing boulders were delivered and installed with heavy equipment provided by Industrial Constructors/Managers and Gary's Crane Service on September 1, following site preparation provided by Southside Lawn and Landscaping.

<<PHOTO OPPORTUNITY – 1:00 pm on Thursday, 9/1 – Boulder delivery & installation>>

Class members will provide sweat equity to the project as they personally install multiple stone benches and picnic tables and add graffiti-resistant coating to all the park materials on September 6. In fact the classmates have been hands-on throughout the evolution of Pillars Park; participating in a clean-up day at the site and hosting a golf tournament to raise funds earlier this summer.

Donations to Pillars Park are still being accepted through the Chamber. New funds may be used to purchase a sun shelter, additional landscaping materials, or other accessories for the park. All contributions must be received on or before September 12 in order for the donor's name to be listed on recognition signage at the site.

--Leadership Pueblo 2011--

Pillars Park is an initiative of the Leadership Pueblo class of 2011 to build partnerships that support a healthier and vibrant community with a recreational opportunity for people of all ages.

Pillars Park is a positive recreational venue and capital improvement initiative along the Arkansas River corridor that is attractive, clean, healthy and accessible for all age groups and will provide memorable experiences, while also improving the quality of life in our community. Our vision to develop the Arkansas River trail and compliment the White Water Kayak Park as a destination attraction will be another economic opportunity for Pueblo to attract visitors to our area, as well as provide an outdoor recreational activity for the citizens of Pueblo. This "unroped" rock climbing and bouldering experience along the Arkansas River with a park in the center of town will provide numerous future opportunities for our community, while supporting other activities offered along the Arkansas River trail such as kayaking, biking, picnicking, fishing, walking and hiking. The Pillars Park project will provide a foundation to build partnerships that support a healthy, vibrant community with recreational opportunities for people of all ages.

Subject: 4th Street Bridge Appraisal

Dear Mr. Shay:

I have assembled documentation for sales of Conservancy District property. These documented transactions are an accurate reflection of the value of the property that the Colorado Department of Transportation is seeking to acquire for the 4th Street Bridge Right-of-Way. The comparable properties that your appraiser used were in rural areas, far removed from city centers, and large parcels. Inherently they are not going to have as high of a value per square foot of land as the parcels that CDOT is seeking to acquire. Furthermore, we do not believe that the appraiser's report demonstrates knowledge and appreciation of the heart of Pueblo, the importance of the Arkansas River Levee, the value of the constructed assets and the land along the River corridor, and the important role of the Pueblo Conservancy District.

The information we are submitting is for a sale, consummated in August 2005, to Jimmy Dawson; and another one to John Starr III, on February 26, 2007. These sales are for small parcels of land with similar site characteristics, and in the same general area as the proposed CDOT acquisition, not miles away.

The property sold to Dawson was three lots on the south bluff of the Arkansas River, at the north end of Townsend street. The area of these three lots is approximately 11,956 square feet and was sold at a price of \$10,000. This equates to a unit price of 83.6 cents per square foot. The enclosed topographic map shows that the face of Lot 15 is at a grade of 62.5%, and Lots 25 and 26 have a face of approximately 52.3% grade. In addition to the topographic map, we have provided photographs of the site. These lots are clearly not easy to build on, nor are they in a desirous location.

Starr
The other property is mainly a narrow parcel approximately 53 feet wide and 320 feet long, along the south bank of the Arkansas River, between Interstate 25 and Santa Fe Avenue. This parcel is approximately 23,958 square feet, at an accepted offer of \$3000. The offer required the purchaser to pay all survey and title costs and to allow the Pueblo Conservancy District the rights of ingress and egress for the maintenance of the River bank and channel. The unit price of this parcel is 12.5 cents per square foot. The enclosed photographs show that this is not a highly desirable location, has no recreational benefit, and that it has marginal access.

The Pueblo Conservancy District feels that these documented transactions fully justify our counter proposal of \$4500 (9.88 ¢ /sqft for 45,539 sqft) for the proposed CDOT acquisition.

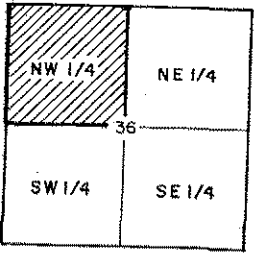

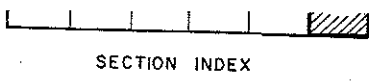

You may feel free to contact me if you have any other questions.

Sincerely,

Ricky A. Kidd, PE
Administrator/Engineer
